UST Campus Building History

18-May-09

This spreadsheet is a **partial** record of the buildings purchased and built by the University. Several were used as classrooms or dormitories while others were promptly removed for the construction of permenent buildings that could better serve the students. Names have migrated from one building to another to another as needs changed. Streets have been closed and removed to increase safety and accessibility. Overall, this is a record of the growth of the university. Several properties off campus are not included. Several non-UST properties are included for informational purposes.

This is the UST interactive campus map: http://www.stthom.edu/Visitors_Community/Maps/Index.aqf

Leased	Acquired	Completed	Sold	Demolished	Campus Map Nos.	Extant	Building Name	Address	Building Use
