Course Description: Contemporary Taiwan provides a broad introduction to the history, culture, politics, and current events that shape daily life in Taiwan. With rich Confucian foundations, Taiwan is also a vibrant democracy, driver of the global economy, and an important component of US foreign policy in Asia. Over two weeks, we will visit cultural sites, government ministries, Taipei's famed night markets, and partner universities in Taipei, Tainan, and Kaohsiung to experience first-hand the people and place that is known as Isla Formosa, beautiful island.
