Victoria Necroto, 5th Grade Teacher

Ms.Necro

Ms. Necroto, my teacher, is one of the most caring and outgoing people I have ever met. She is all ears one hundred percent of the time and your situation is always on her mind. You can tell her anything, and she will not ignore you. I think Ms. Necroto is very organized and fun-loving, too. She shows herself in everything she does, which is very superior! Every morning I say to myself, "Another day of school, but at least Ms. Necroto is there!" My path is lit up with the presence of Ms. Necroto because she is a strong believer and leader of faith in her actions, and she encourages me that my dreams can come true. If I work hard at my studies, I can achieve my goals and will be able to have the freedom of doing what I want because I have the choice.

Ms. Necroto is never embarrassed about telling us her thoughts and feelings, and she is a very kind-hearted person. She also helps the class realize our mistakes. In Ms. Necroto's eyes we are all one big family, and she has showed us how to apologize and become friends again and find the positive, decent, and enjoyable sides in others. With Ms. Necroto around everyone has become a better person and in all of our hearts we are more a family than just a class that has been together for many years. Ms. Necroto has taught us to welcome everyone into our lives even owe are only acquaintances. She has taught our class to be more open and to express our differences because that is what makes us individually excellent. We may be twenty-three different minds, but our souls are what make us one. The only reason we are so close is because our souls have been lit up by Ms. Necroto. She does not expect anything but our best effort in all of our tasks.

Ms. Necroto is a very honorable person who teaches me to be a person of Christ with justice in my heart and the knowledge of equal rights for everyone in my thoughts, words, and actions, No matter who someone is, I bow that I can be a follower of Jesus with the help of Ms. Necroto. Her physical appearance is a part of her character. Her beliefs are also a part of her character. She is a part of my character and I have learned so much from her. She is a gem in my heart, mind, and spirit. Younger kids at school look up to my class and think we are great. Middle school teachers think we are very well-behaved, but who can be great without our own role-model? I know I can't.

So I would like to introduce you to the best teacher you will ever meet:

MS. VICTORIA NECROTO!
