### **Historical Note**

With the “oil bust” ending during 1982-1985, the Houston economy—and the University of St. Thomas--began to recover. Joseph McFadden, the University’s first lay president, began his tenure in 1988. Dr. McFadden’s experience as a fund-raiser and administrator would do much to put the University on the road to recovery and even growth. Not only would funds be raised to build the Chapel of St. Basil, completing the Academic Mall, but donations would be sufficient to cover the dome in gold. In 1997, Dr. McFadden returned to teaching while remaining at the University and was succeeded by Fr. J. Michael Miller, CSB, and former vice-president of Academic Affairs. Fr. Miller served until 2005 when he was appointed by Pope John Paul II to be Archbishop at the Vatican in charge of Catholic education worldwide. Retired Major General Robert Ivany, Ph.D., became the tenth president of the University and the second lay person to serve in that function. Overall, the University grew in enrollment and academic programs with the reinstatement of the team sports of women’s volleyball in 2006, men’s soccer in 2007 and men’s basketball scheduled for the fall of 2009.

The Public Affairs department is responsible for informing the world about the activities of the University. The press releases, photographs and resulting news articles have become a printed and visual history of the University, from lectures and performances to presidential inaugurations and commencements. The University is also affected by events of the world; the passing of Pope John II and the election of his successor, Pope Benedict. As a faith-based university, UST is also affected by the affairs of the Church ranging from its scandals to the holiest of moments.

### **Scope and Content Note**

Almost all items were created between 1998 and 2009. The contents include black and white and color photographs, newspaper and magazine clippings, copies of the clippings, broadsides, brochures, correspondence, invoices, newsletters, pamphlets, video tapes, CDs, and DVDs.

### **Arrangement Note**

The collection is organized into series by format; press releases, articles, and photographs and then by chronological order. Within the series of press releases, the following sub series may be found; Commencements, Mardi Gras, Fund Raisers, Undergraduate Research Symposia, Special Events and General items. Where possible, photographs have been placed adjacent to the appropriate press release or article.

Within the series of articles from news sources can be found Academics, Administration, Alumni, Board of Directors, Buildings, Events, Faculty, People, Popes, Presidents, Sports, Students, the University and University Programs. The Academic and Administration sections are in alphabetical order. The Alumni section contains articles and photographs of various alumni and their accomplishments. The Alumni, Board, Buildings, Events, People, Popes, Presidents, Sports, Students, University and University Programs are in chronological order. Events are considered to be items of a short duration such as plays, concerts, lectures and dedications. The Faculty series includes book reviews, articles by faculty members and quotations in articles. Arrangement begins in alphabetical order followed by a General faculty sub-series which is in chronological order. The term student is interpreted liberally, from the awarding of scholarships in high school through University commencement ceremonies. Students, for purposes of this collection, become alumni the day after graduation. The University series of articles covers advertisements, architecture, capital campaigns, college days, enrollment, expansion programs, fund raising, and grants. University Programs is concerned with educational programs. The General sub series is in alphabetical order.

### **Acquisition Information**

The collection was created on an ongoing basis by the Public Affairs department and transferred to the Archives in July, 2008. Since Public Affairs is an ongoing activity, additional transfers are likely and the collection should continue to grow.

### **Physical Condition**

The photographs and press releases are generally in good condition. The articles were primarily from newspapers and magazines with the inherent problems of newspaper; acidic paper, brittleness and browning. The newspaper clippings were copied for preservation purposes and the originals were discarded. The entire collection is now in good condition with no further preservation activity planned.

### **Acknowledgements**

Identifying the dozens of people in the photographs of this collection required the assistance of many people; including Fr. Patrick Braden, Tom Crow, Ken DeDominicis, Betty Fischer, Betty Kaffenberger, Rose Johnson, Joseph, McFadden, Al Pfeiffer, Harold Rosen, Sandra Soliz, and Kia Wissmiller.

### Series Description:

Series 1: Press Releases; The Public Affairs Department issued press releases and other printed media to publicize various University events such as concerts, lectures, and performances. The series is divided into the sub-series of Commencements, Mardi Gras, Fund Raisers, Undergraduate Research Symposia, Special Events, and General where other press releases are organized.

Series 2 Articles and Images; The press releases created by the Public Affairs Department frequently resulted in newspaper and/or magazine articles publicizing University activities. Public Affairs created many images including photographs, video tapes and DVDs; Photographs captured and recorded University events such as commencements and Mardi Gras, but also the people of the University; faculty, staff, students, members of the board of directors and administrators and physical objects such as buildings and art work. The two items are combined whenever articles and images relate to the

same event or people. This series is divided into Academics, Administration, Alumni, Board of Directors, Buildings, Events, Faculty/Staff/Deans, Popes, Presidents, Sports, Students, University and University Programs and General.
