Self and Peer Assessment

The Self and Peer Assessment tools allows the students to become part of the grading process. Self assessment can be used to have a student grade/review their own work by following instructions set by the instructor. Peer assessment is similar but it allows students to grade/review other students work.

Creating a Self/Peer Assessment:

With Edit Mode On:

1. Click on desired Content Areas (Syllabus, Course Documents, Assignments, etc...).

2. Hover over Evaluate and click on Create Self and Peer Assessment.
3. Choose to create a new assessment or import your own. Fill in the Assessment information. Select Submission dates.

4. Choose the evaluation options. **Anonymous Evaluation** hides the names of both the submitter and evaluator. **Number of Submissions to Evaluate** specifies how many assessments each person will evaluate, set to 0 to only allow Self Evaluation.

5. Click on the **Submit** button.
Adding Questions:

1. Click on the **Create Question** button.

2. Fill in the question that you would like the student to answer.

3. Enter a model response if you would like.

4. Click the **Submit** button.
Adding Criteria:

1. Click on the double down arrow, or chevron, next to the question you would like to add criteria to.

![Question 1 and Question 2 with options to add criteria](image1)

2. Click on either Create Criteria or Word Count Criteria. Word Count Criteria allows you to specify the amount of words that the answer should be. We will click on Create Criteria for this tutorial.

Viewing the Results:

1. Under the Control panel, on the bottom left side of the page, click on **Course Tools** and click on **Self and Peer Assessment**.

2. Click on the double down arrow, or chevron, next to the name of the assessment. Choose to **View Submissions**, **View Evaluations**, or **View Results**.
