Modules – Adding/Removing Modules

Modules are items that include content, links, or tools that can be added to personalize a page. Users can browse for a module by category or search module titles and descriptions by keyword. Select a module More link or the Show/Hide toggle to preview that module. Select modules to appear on the page: My Institution.

Adding/Removing Modules

1. You can add or remove modules by clicking “Add Module.” You will get a “Add Modules” page with a list of all available modules.

2. Click the Add button next to any modules you want to add.
3. Click the Remove button next to any modules want to remove.
