

Viewing and Grading Assignment Attempts

If an assignment allows multiple attempts, you can go directly to whichever attempt needs to be graded through the Full Grade Center. The contextual menu for the assignment may display more than one attempt at the bottom. Select the specific attempt to view or grade assignment results.

1. Under Control Panel, click **Grade Center**, then **Full Grade Center**.

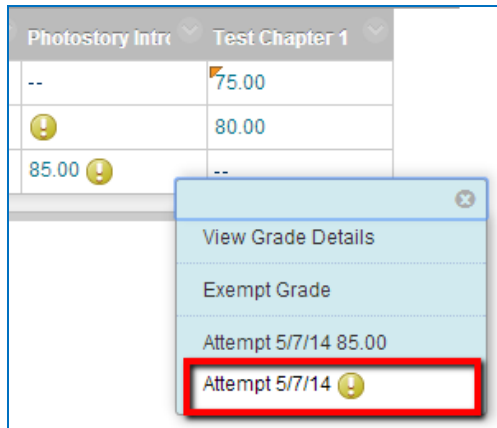

2. In Grade Center, locate the cell for a student's assignment that contains an exclamation mark, which indicates that the assignment requires grading.

4. Click the arrow, and select the most recent attempt in the bottom section of the menu. For assignments allowing more than one attempt, you may see several attempts listed.

5. On the Grade Assignment page, review the student's submission, enter a grade, and type feedback (if necessary). You can show the Feedback box by clicking the down arrow at the bottom of the Attempt section of the Assignment Details pane; click the up arrow at the bottom to hide the Feedback box. Click **Submit** when grading is completed.
