

## Inline Assignment Grading

Inline grading, a feature added in Blackboard 9.1 SP 11, allows you to view, comment on, and grade student-submitted assignment files without leaving the Grade Assignment page. There is no need to download the files for all submissions and mark them by hand or in a word processing application.

This feature is made possible through a browser plug-in called the Crocodoc Viewer. As with many features in Blackboard, this plug-in requires the Java Runtime Environment to be installed on the computer and enabled for the browser.

### Inline Annotations

Files that have been uploaded and converted for display in the inline viewer can be annotated directly within the browser.

Click **Comment** on the toolbar to expand the annotation tools. Select an annotation tool to comment, edit, highlight or draw in the document.

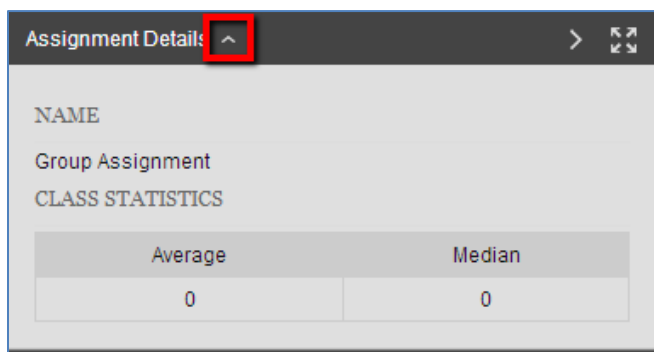

Here is a list of the tools available in the Crocodoc Viewer:

Button	Description
	Zoom out. Make the content of the file appear smaller. This button is also available to students when they review their submission.
	Zoom in. Make the content of the file appear larger. This button is also available to students when they review their submission.
	Expand the list of annotation tools.
	Download a copy of the file. If annotations have been made, you have the option to download a copy in the original format or download a PDF version that includes the annotations. This button is also available to students when they review their submission.
	Move back a page. This button is also available to students when they review their submission.
	Move forward a page. This button is also available to students when they review their submission.
	View all annotations.
	Add a comment to a specific point in the document.
	Add a comment to a selected area in the document.
	Add a comment to selected text in the document.
	Draw in the document using a pencil tool.
	Highlight selected text in the document.
	Add text to the document.
	Strike out text in the document.

## Grading a Submission Inline

From the Inline grading sidebar you can:

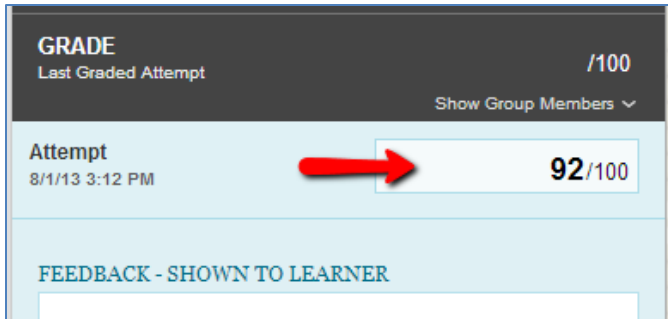

1. Expand assignment details to show the information from the assignment content item.

2. Hide or show the sidebar, and expand the grading window to Full Screen.

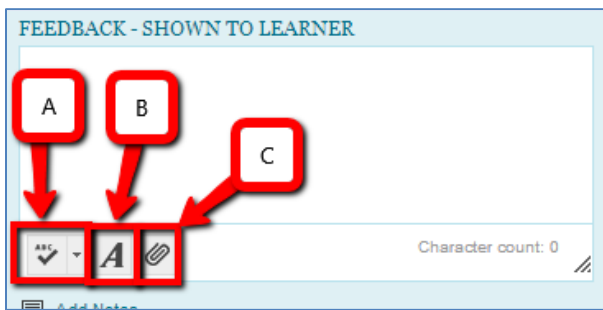

3. Type a grade for the attempt.

4. Download the originally submitted file or files. If more than one file was submitted for the attempt, all files are available here.

5. Type feedback for the student to see. Files can be attached to the feedback, and the Feedback field can be expanded to take advantage of the full Content Editor capabilities.

- A. Check spelling in the Feedback box.
  - B. Expand the Feedback box to a rich text editor.
  - C. Attach files.
6. Optionally, add private grading notes, not visible to the student.
