

## My Groups

Students can see what groups are available through a Groups tool link on the Course Menu. (See the *Navigating to the Groups Page* tutorial for instructions on creating the Groups tool link.) They can see what groups they belong to by viewing the My Groups menu located below the Course Menu on the left side of the screen. Here they can also expand the groups to display links to the available tools for each group.

Instructors who are members of at least one group will also have a My Groups menu below the Course Menu.
