

Viewing Associated Content for a Rubric

A single Rubric can be associated with multiple assessments. A report listing all items associated to the Rubric is available from the Rubrics tool.

1. Under Control Panel, click **Course Tools**, then **Rubrics**.

2. Access the contextual menu next to the name of a Rubric, and click **View Associated Content**.

3. On the View All Items page, click an item name to edit the association, or click **OK** to return to the main Rubrics page. If an item has been used for grading, a rubric evaluation report will be available in the item's contextual menu. This report provides statistics for an item that was graded with a rubric.

View All Items: testsetset

All items associated with this rubric are listed on this page. Click the **Item Name** to edit the association or click **OK** to return to the main Rubrics page. [More Help](#)
