

Viewing and Grading Test Attempts with Rubrics

Blackboard evaluates answers to objective questions, compares them with the correct answers supplied, and calculates scores. It does not have the capacity to grade Essay and Short Answer questions, so the Instructor must evaluate those. Even with objective questions, it is good practice to check whether the correct answers designated were indeed correct.

To view test results:

1. Under Control Panel, click **Grade Center**, then **Full Grade Center**.

2. Click the contextual menu for the column corresponding to the test, and select **Grade Attempts**. You can also click the contextual arrow in an individual cell and select **Attempt: (date)**.

3. The test is displayed showing the student's answer and the correct answer for each question. Click the **View Rubric** button to use the associated Rubric for help with evaluating the answer.

QUESTION 3: ESSAY - out of 50 points [View Rubric](#)

If a philosopher threatens you with a poker, what does it really mean?

Given Answer: It means that the philosopher has a short temper, has possibly had too much to drink, and is exasperated with your weak argument s.

Correct Answer: [None]

Response Feedback:

- Click the option buttons for the level of achievement in each of the criteria. You can also click the button at the top of each column to select that level for all criteria. For minor adjustments to the total, enter a revised total in the box at the bottom. Click **Save** to return to the test.
