Collaborate Ultra: Leaving the Room

A user may leave a Collaborate conference completely or set status to Away. Use the Leave Session command if you do not intend to return (although you may still rejoin the room). Use the Set as Away command to indicate that you are attending to other business and temporarily not participating.

Leaving the Room

A user may leave a Collaborate conference completely or set status to Away. Use the Leave Session command if you do not intend to return (although you may still rejoin the room). Use the Set as Away command to indicate that you are attending to other business and temporarily not participating.

Leave Session

There are two ways to leave a Collaborate conference completely:

• click the Leave Session icon at the bottom of the Session Menu; or
• click the My Settings icon, and select Leave Session on the Feedback Panel.

When you click this icon, a different icon appears in the top-left corner that allows you to return to the session.

![Leave Session and Return Icons]

The screen will also display a way for attendees to evaluate the quality of the audio and video from the session. Users may either select a rating and click Submit And Exit, or simply click Skip.
You may bypass the evaluation screen entirely by closing the browser window or tab to leave a session. However, this method does not provide a chance to return to the session. Other attendees will receive a notification of your departure.

Moderators and other attendees will receive a notification that you have left the room if their Notification Settings are configured to do so.

**Set as Away**

A user may also leave temporarily and indicate Away status without leaving the session completely. The **My Settings** icon has a **Set as Away** sub-icon that shows green with a checkmark when you are present, yellow with clock hands when you are away. After you click **Set as Away**, your screen name switches to italics in the Attendees pane for all users. A dialog box with an **I'm back!** button appears near the top of the window; click that button to inform other attendees that you have returned.
You're away
Others in the session will see that you've stepped away.

I'm back!
