

# MASTER OF EDUCATION (MEd) INSTRUCTIONAL TECHNOLOGY

## ONLINE | 2 YEARS | 36 CREDIT HOURS

### FOR

Prospective and practicing educators and administrators wishing to enhance their technology skills and advance within their district to serve as technology coaches/mentors, technology coordinators, and technology leaders.

### WHAT YOU LEARN

The program is geared towards those in education desiring to increase the innovative and leadership capacity needed to increase the effectiveness of educators in using technology. Graduates from this program will become innovators and mentors, leading the way to changing how technology is used so as to become a seamless part of the educational process. Our graduates will embrace instructional technology, innovate with technology, and anticipate roadblocks and challenges to effective use of technology within the state's public schools and other organizations.

### HOW YOU LEARN

**Online:** This program is an online cohort program. Students will check in online to complete assignments and participate in online discussions and group activities. While there are no face-to-face requirements, there may be some live online sessions and/or conference call sessions required. Students will complete two courses every semester.

### CAREER OUTCOMES

Upon completion of the program, students will have earned a Master of Education degree in Instructional Technology.
