# ASSOCIATE OF APPLIED SCIENCE IN ELECTRONIC TECHNOLOGY

## AMP UP YOUR CAREER

OFFERED 100% ONLINE

The world increasingly relies on a wide variety of electronics equipment to keep things running smoothly, from navigational equipment to medical monitoring devices. Skilled electronics professionals provide essential support to organizations in the design, installation and repair of electronics equipment.

The proposed UST Associate of Applied Science in Electronic Technology gives you the knowledge and skills to **begin or continue a rewarding career in electronics technology.**

While it can take 4 years of longer to earn a bachelor's degree, you can **complete this 100% online program within 2 years** and start your career sooner.
