

Adding Content: Assessments

The **Assessments** menu allows you to add new or existing assessment items to a Content Area. (See the “Assessment Tools” tutorials for instructions on how to create tests, surveys, and assignments.)

- Create or Add a Test
- Create or Add a Survey
- Create an Assignment link for students to submit work

Although it is possible to create a new Test or Survey from these menu commands, we recommend creating them via **Tests, Surveys, and Pools** in the **Course Tools** section of the Control Panel, then adding existing Tests and Surveys via the Assessments menu.
