Blackboard 9.1 Wimba Voice Authoring

Below are instructions for using Wimba Voice Authoring in your Blackboard class. Wimba Voice Authoring allows you to record messages that a user can play back anytime. A Voice Authoring message can be embedded directly into a web page to welcome students, build assessments, and add emotion and tone to your online course.

1. Log into your Blackboard course.

3. Select the Content Area to add Voice Authoring to.

4. Click the drop down arrow next to “Build Content” and then select Voice Authoring under Mashups.
5. In section 1 you will record your message. Click the Record button under Information. Speak into your microphone to record the message. Click the Stop button when you are finished recording. Type a name for your message in the text box next to Title.

6. Select your preferred “Mashup Option”.

7. Click “Yes” to make the voice authoring available. Choose date and time restrictions.
8. Under Submit click the submit button when you are finished.

9. Your Voice Authoring will appear in the content area you set it up in. Click play to listen to your recording.
